

Under the High Patronage of
Mr Emmanuel MACRON,
President of the French Republic

Press release - 28 March 2024

INTERMAT 2024

Decarbonisation at the heart of the events happening on the INTERMAT Demo Zone for a deep dive into the construction sites of the future

From 24 to 27 April, INTERMAT 2024 aims to offer a showcase of the excellence of the construction industry and the innovation dynamic of French and foreign equipment manufacturers in the race to net zero. Among the highlights of the 2024 show, the events taking place on the INTERMAT Demo zone, focussing on the themes of low carbon and safety, will be kicking off every 10 minutes throughout the four days of the exhibition.

The art of showcasing the innovation of construction equipment and machinery

INTERMAT DEMO, one of the key attractions of the show with a unique outdoor space given over to demonstrations, will offer exhibitors a chance to show off their equipment and machinery in real-life operating conditions. In 2024, the Demo Zone will thus be the **crossroads for the most innovative and effective equipment in the construction sector.**

Taking place on a shared space, it will host innovative and latest generation equipment, notably fitted with hybrid or electric engines, and will offer a chance to test new powertrains and take a deep dive into the construction site of the future.

Every day, the spectacle of machines in operation with nearly 200 demonstrations

Through a programme of nearly 200 demonstrations of worksite machinery, construction professionals will be able to admire the know-how of manufacturers and the **latest developments in low-carbon and digitalised equipment and machines in the quest for better safety, higher productivity and energy efficiency.**

The Demo Zone, which has been revisited this year to offer more conviviality will also have a **food and drink area** with a varied selection of food trucks to enable attendees to prolong their discussions around lunch or a drink.

New in 2024:INTERMAT Demo will be divided into two zones: a gravel zone and a sand zone to offer simulations on two construction site materials. Each zone will see a demonstration take place every ten minutes from 9.30 am to 5.30 pm.

Demo Zone INTERMAT 1 - Gravel

RIVARD

Manoeuvring and positioning of 32T equipment by radio control, gravel suction by articulated arm, gravel tipping.

THEAM

Demonstration of the Sprider, a tool for placing asphalt (e.g. for trenches, pavements, etc.)

GILBERT

Handling the MG-90 and/or MG-60 machine with an excavator, picking up sheet piles from the ground and standing them up, demonstrating the machine's 360° rotation. Demonstrate the function of the vibratory hammer for piling without digging into the ground.

MERLO

Presentation of the EW25.5-90 electric machine in two different applications, focusing in particular on battery interchangeability, telematics solutions and the advantages in terms of running costs of an electric model compared with a combustion model.

GD PFC Construction

Demonstration of the platform on amplirole, with a focus on loading for storage and transport of shoring to make trench work safer.

Demo Zone INTERMAT 2 - Sand

EUROMAIR

Europe Projection: Start-up of the x-screed D60 dry screed machine with application of the sand product on the floor.

Other machine to see during the demo: MIXPRO 28 - 3 kW Ragréage & PROJECT CP 35 + malaxeur PREMIUM

KINSHOFFER

Demonstrations of the manoeuvrability and flexibility of the NOX range of tiltrotators.

KÄSSBOHRER

Demonstration of the new PowerBully 12D, a tracked dumper for the construction sector, with a focus on the PowerBully's driving characteristics.

ROTOTILT

Demonstration of tool changing and levelling with the Volvo EW150.

iDIG

Demonstrating the precision and ease of use of the iDig system.

Use GPS to mark out a site and dig the area with a shovel.

Visitors offered 30,000 free meals in a convivial atmosphere

Another new feature for the 2024 show: 30,000 meals will be served to visitors free of charge over the four days of INTERMAT in three catering outlets offering a convivial and festive atmosphere: La Taverne, L'Auberge and La Guinguette, which will have a pétanque terrain.

About the organisers

S.E. INTERMAT brings together:

- **EVOLIS**, a grouping of CISMA (construction, infrastructure, steel and handling equipment association) and PROFLUID (French pumps and agitators, compressors and valves association), is the trade organisation representing the players in the French mechanical equipment market. Since its merger with SYMOP (organisation of machines and equipment for industrial production), EVOLIS now represents 600 member companies, 82,000 jobs in France and a turnover of 18 billion euros, of which 11 billion euros is exported. www.evolis.org
- **SEIMAT**, the Association of International Civil Engineering, Mining, Construction and Hoisting Equipment Industries. SEIMAT federates and drives the leading global players in construction machinery and equipment operating in France. The trade association brings its members key expertise on legal, technical, social, environmental, customs, and health & safety issues. It also offers constantly updated information on economic and industrial activity, and produces equipment sales statistics for France. Through its society Club SEIMAT, it actively contributes to promoting and enhancing the brand image of jobs in construction and handling maintenance. www.seimat.com
- **COMEXPOSIUM**, one of the leading event organisers worldwide, creating events that bring communities together to discover and explore businesses, passions and interests. Comexposium organises more than 150 professional and general public events, covering more than 10 sectors of activity (agriculture/food, retail/digital, fashion/accessories, leisure...). The group connects 48,000 exhibitors and 3.5 million visitors, 365 days a year in 22 countries. Creating experiences and encounters between individuals, Comexposium enables throughout its events (SIAL, All4Pack, Paris Retail Week, One to One Monaco & Biarritz, Foire de Paris, Rétromobile, etc.) and its associated content its communities to be connected all year round through an effective and targeted omni-channel approach. www.comexposium.com
